AUGER RACK

1.5T - 24T

*Auger Drive
& Auger Rack*

MINI - MAXI - MEGA

- Universal compatibility: Adjustable motor mount to suit all major drive motor brands and auger makes.
- High capacity: Holds up to 5 auger mounts, accommodating diameters from 150 mm to 1200 mm.
- Secure fit: Positive lock clamps keep drills upright, with interchangeable collars for drill neck sizes 60, 70, 90, 100 115 and 141 mm.
- Lockable security: All mounts, including the motor mount and extension bar, are padlock compatible.
- Safe handling: Five integrated lift points – blade, bucket, fork pick-up, 4 corner shackle points and central sling/crane point.
- The Racks can be tied down and secured to a tray or trailer from the 4 shackle points on each corner of the floors
- Additional storage: Includes 1 to 2 extension bar mounts.
- The Racks are modular and all clamps are adjustable and bolt on, as well as the floor pockets, extension mount, lower motor mount and main motor mount plus height adjustable clamp posts makes the rack a universal functioning storage asset in your fleet.

*Powerfully
Portable*
